

**Notice to Kittery Residents regarding  
Household Hazardous Waste  
Kittery Solid Waste Facility**

The Town of Kittery will *NOT* be holding it's annual Household Hazardous Waste collection day this October. In an effort to minimize taxes the Kittery Town Council endorsed a recommendation to eliminate this expense because this service is now provided on a year round basis.

In 2005 the Public Works Department built a 3,000 sq. ft. universal waste central accumulation facility that became fully operational in 2006. Items collected at our new building include oil based paints, solvents, anti-freeze, mercury, waste oil, batteries, fluorescents, pcb and non-pcb ballasts and electronic waste. A disposal fee is charged. Hours of operation are 9:00am to 5:00pm, Wednesdays and Saturdays. (Pesticides are not accepted and are best used up rather than disposed of.)

We encourage every resident in Kittery to use this facility for the disposal of household hazardous waste. Please remember, proper disposal of hazardous waste protects our environment. Never dump chemicals down a storm drain or your sink or toilet.
